

Idle Heart

Bear in Heaven

Shes a long gone demerol
Shell make you forget
Something about the time
The time she took you downtown
Shes a long gone demerol
Shell make you forget
Something about
Not living life
Her past times
In your room
Wandering to find the waterfall
That was shut behind an idle heart
God said, you know im so confused
That youd let yourself fall apart
You want it more
For what it is
Youre not alone
You should wait
Later on
Hate yourself
Hideaway
Life is hard
On everyone
Shes a long gone demerol
Shell make you forget
Something about the time
The time she took you downtown
Oh no, you cant remember it
Youre hanging upside down
As a sun related offering
To the night time
To the night time
To the time
Violence and liars are a likely pair
When the pool is filled with empty air
