

# Caught In the Lie

**Michelle Chamuel**

We've been playin' all of our lives  
In a world of little white lies  
And if we wanna make it  
Then we're gonna have to fake it  
And no one's gonna realize  
We've got

Nothing but the songs we sing  
Before we know what's happening  
We might be the next big thing  
And I wish we could escape it  
But let's face it now  
We're caught in the lie
