All Good (Kraak & Smaak Remix)

[Zeroleen](#)

(Yes, international movement superstar)
an original, old boy, massive sound
pick up, put 'em asidegood times when the bassline pumps
penetrate your face, no waste [of] time (yes I)
move your body from your legs to your waistline
pay no mind to no space and time
gonna play all day until the streetlight shines (whoo-ee!)
what to do when it's you and your crew
whack the crew that philo-fishes(?) you and you, c'mon![Chorus]
if everybody feeling good like I think they should
make a move, make a miser misunderstood,
it's alright now (those were the international world leaders)
it's all good
if everybody pick a spot, keep it loud, make it hot, don't stop ya'll
til the beat drop, it's alright now,
it's all good,
here we godancin' all the time, the party's still young,
move your vines, penetrate your soul
pick up yourself, i'm gonna assign some positive vibrationsfrom the front to the back, we can jiggle it out
got the dance-off back, don't fail me now
the night's still young, but keep wild'n out
we got the people on the sidelines hollerin' out
good vibes, that's right, it's the time to shout,
so we gather around, to incite the crowd,
pick the energy up, and then pass it aroundIf everybody feeling good, like I think they should
make a move, make a miser misunderstood, it's alright now
it's all good
if everybody pick a spot, keep it loud, make it hot, don't stop ya'll
til the beat drop, it's alright now, (international!)
