

Sherry Fraser

Marcy Playground

Ooo, I saw stars falling all around her head
Red, gold, and blue
Sherry Fraser, where are you?
'Cause I saw stars falling all around your head
When we were young Sherry Fraser, where have you gone?
We're all wondering
When will you come back
And play some day, Sherry, yeah The mad hatter he waited for Alice
To come to tea again
He waits forever for his old lover And always wonderin'
Will I see stars falling all around your head
When you return Sherry Fraser, what have you learned?
And we're all wondering
When will you come back
And play some day And please do come back
And play some day
Please do come back
And play some day, Sherry, yeah
