No Words

Charlie Wilson

The things you say you do, you dont do
In fact, its just the opposite
Of all of the words that come from youAnd sometimes I sit around waiting you say
Youll come but you never show
Thats not the way you treat your womanThe promises you make, you dont keep
Instead, you go and do the very thing
You know that hurts meWhat Im trying to get you to see
Is that your better half has needs
You dont have to say a word to me, baby justShow me you love me
And you wont have to say a word
Just show me you love me
And you wont have to say a wordI dont wanna let you go
Breaking up would be absurd
If you just show me you love me
Then you dont have to say a wordLike sometimes you say you're right but youll be wrong
And still I take the blame, tuck all my pain
'Cause I dont wanna argue all night longOh, I toss and turn through the night
The morning comes and youre still not by my side
Thats not the way you treat your womanSaid, you would be faithful but I cant tell
In fact, you show me things that lets me know
That your heart is somewhere elseWhat Im trying to get you to see
Is that your better half has needs
You dont have to say one word to me, baby justShow me you love me
And you wont have to say a word
Just show me you love me
And you wont have to say a word, wordWord, word, you wont have to say a word
Word, you wont have to say a word, oh no, baby
You wont have to say a word
You dont have to say a word, no no, word, noJust show me you love me
And you wont have to say a word
Hey, just show me that you love me
Oh baby, sometimes you gotta show meHey she said, "All you gotta do is
Pick up the phone and call me sometimes"
She said, "Take me to the club with you sometime
Can you take me out to dinner with you sometime?
Send me a bouquet of flowers sometime?"She said, "Get up off your lazy ass
And go to work sometimes
Cancel hanging out with your boys
And stay in with me sometimes""I'm your woman, act like it sometimes

All I ask is that you take care of business sometimes
Can you take the trash out for me sometimes?
Can you get in the kitchen and wash the dishes sometime?"
