

What's So Bad

Smokin' George

Here we met at the cross roads once again
as I'm thinkin' - glancin' out the window
and the problem is that well one of
your old friends is now your best friend
plain and simple - If I did ignore all the
obience signs along the way - Yeah
I would a seen it coming - And after all this time
I thought you were all mine - but instead
in to another mans arms your runnin'

chrous:

Tell me what kinda things could another man do
Baby ya know we had it all - cuz you said
when I held you tight in the day or the night
Everything bad went away - so tell me
what's so bad about that

I just don't understand how you can up leave
me like this - but I guess I'll have to
But I won't forget all the good times No No No
for my kids until I got on one knee and
I asked you - to be mine forever, with a little
white picket fence, two kids and some dogs
out back - But I guess I was wrong and that's
about that

Chorus - solo - Chorus
