

# Wish Someone Would Care

**Irma Thomas**

Sitting home alone, thinkin' about my past  
Wonderin' how I made it and how long it's gonna last  
Success has come to lots of them, failure's always there  
Time, time waits for no one and I wish  
How I wish someone would care, yeah Some folks think you're happy, when you wear your smile  
But what about your tribulations and all, all of your trials?  
Smiles, smiles hide a lots a things  
The good, the bad, the hurt, all of this goes too And I wish, I wish, how I wish someone would care  
I wish someone would care, don't you think someone should care?  
Ah don't you need someone to care?  
Sit down and think about yourself
