

House of Lies

The Shortwave Set

I'm burning on fire
Feeding on my desire
I wanna know every way
You make love
Excite me invite me
Your moves they hypnotize me
I wanna fuck you till you scream
My name out loud - Out loud! Come on baby drive me crazy
Take me for a ride I'm burning get me moving
Let's get that body grooving
The way you shake
You're blowing my mind
You scratch me I'm bleeding
You got my demon screaming
You can tie me up all night and torture me - Torture me! Come on baby drive me crazy
Take me for a ride Here I'm waiting
In your house of lies
The games you're playing
You got me hypnotized Here I'm waiting
In your house of lies
The games you're playing
You got me hypnotized Here I'm waiting
Waiting for the show
Anticipating waiting to explode
