

Tuff Baby

Iggy Pop

I love your hair, your pearly smile
Your eyes, they scan, society's vile
Insect cars, horny men from Mars I love you, tuff baby
I love you, tuff baby You've known the score for a while now
Your dad don't care, your mom's aware
Your hands are new, I wonder what they'll do I love you, tuff baby
I love you, tuff baby There's chaos in the old suburbs
And downtown too, they got the blues
But you'll survive with a hard glint in your eyes I love you, tuff baby
I love you, tuff baby
I love you, I love you
I love you, tuff baby, tuff
