We All Wanna Die Sometimes (prod. oilcolor)

VELVETEARS

I know we all feel the same thing
eating away inside at our brains
why do we hide the way that we feel
when the way that we feel is the only thing thats real
stop hiding
stop trying to smile when you're dying
I see your pain and I see you're trying to blind it
you dont have to run let it out and cry

remember the whole world feels the same inside (x2)

Guns to our heads
thats just life
everybody dealing with their own damn strife
everybody tempted by their own damn knife
I've never seen a reason to lie
I know we all wanna die sometimes
We all want to die sometimes

why do we lie why do we hide
I know we all wanna die stometimes
I wanna die sometimes
I wanna hide sometimes
we all wanna die
