Living Together

Circa Survive

It starts out like a season in reverse
A way to set your mind above and over words
(Like) attached means (your) identity
Erases things so how can we record?Distress call code-word is I wanna live
He makes it up as it goes, it goes away
To places he can only hide in other peoples minds
He makes it up as it goes
It goes awayYour rational minds insane
Taste the sound you make
When the light from the sun
Its the story that never gets sold
When the light from the sun, it is your mother.Attached means identity
Erases things so why should we...Distress call code-word is I wanna live
He makes it up as it goes, it goes away
To places he can only hide in other peoples minds
Uh, he makes it up as it goesWith an effortless smile you pervade to be
And in-between aisles
They would say you stare to see
With an effortless smile you pervade to be
Always in-between aisles
Optimistic daring me
would you trade your soul for gold?
Would you trade your soul?
Would you trade...
