

Love Me Over Again

[Don Williams](#)

Likely as not, theres been better weather
I feel real sure theres been better times
Right here tonight with you all around me
Im so glad, right now is mineHoney tonight, make it alright
Turn on your smile for me for awhile
Take me away from where I have been
I know you love me but love me over againYou have the way to feel my emotions
Til theres not a word left in my mind
Times get so hard, so confusing
You make now a so much better timeSo honey tonight, make it alright
Turn on your smile for me for awhile
Take me away from where I have been
I know you love me but love me over again
