

# New Hearts

## Naked Eyes

Look in my direction, tell me what you see  
I won't take exceptions, I know I believe  
We are new hearts falling in love  
This is the start, you are the one We see and believe in the  
New hearts, new hearts, new hearts  
New hearts, new hearts No regrets to mention, I would not change a thing  
You relaxed my attention, you made my body sing  
'Cuz, we are new hearts falling in love  
This is the start, you are the one We see and believe in the  
New hearts, new hearts, new hearts  
New hearts, new hearts I'll be your protection, put your trust in me  
There'll be no suspicion, truth is plain to see  
Ay, we are new hearts falling in love  
This is the start, you are the one We see and believe in the  
New hearts, new hearts, new hearts  
New hearts, new hearts  
New hearts, new hearts, new hearts  
New hearts, new hearts
