Pestilence

Himsa

Semblance at auction
The belly of the beast
Target implied
From tooth and nail deploymentInstitution of youth culture
From a nation
Self containedStrategy of dictation
Read and refined
Calculations come full circle
So move away from the lightLive and learn
The value of vice
Pestilence
You're all afflictedLive and learn
The value of viceIt owns you
Like it owns the new dawns
And changelings
Never stop changingIt's sole purpose for power
It's sole purpose for powerAddiction is cunning
So bite the hand that feeds
The want is calling
Mutinying imageryThere is no answer
There is no answer
For the living deadPossessing privilege
From the law laid down
It's all been said beforeByproduct for ethos and slogan
Create and consume
And then run like thievesLive and learn
The value of vice
Pestilence
You're all afflictedLive and learn
The value of vice
Pestilence
You're all afflictedIt's all been said before
It's all been said beforeTurn out the light
It's striking
