

Into the Sun

The Wild Feathers

Into the sun, away from the night
Everyone's waiting for their time to arrive
Only this moment, is here right now
Into the sun, we ain't going down
23 and chasing the sound
That's what you gotta do when you're the new kid in town
I'm not reacting I'm just acting out
I want to go where they can't find me
Into the sun, away from the night
Everyone's waiting for their time to arrive
Only this moment, is here right now
Into the sun, we ain't going down
Waking up, open the door
I can see that my heart wants more
Got obligations you don't understand
I wanna go where I wanna be
I can see that coasting is easy
when nothing's weighing down on me
I can finally fly now
I'm free
Into the sun, away from the night
Everyone's waiting for their time to arrive
But only this moment, right here right now
Into the sun, let it all out
Into the sun, away from the night
Everyone's waiting for their time to arrive
But only this moment, right here right now
Into the sun, we ain't going down
