Watch Me Rise (feat. Shari Short)

[Photronique](#)

You used to say I was nothing, wasn't worth it
Made me believe that my love for you was counterfeit
Words cut deep, they brought me to my knees
You took my world and you tore
It into pieces, thought you were it and I could never leave this
But I found the strength inside of me
I found my light inside the dark
I filled the hole within my heart
You have no power over me
Watch me rise above all the lies
I won't Break, no matter how hard you try
Watch me rise, I'm touching the skies
Nothing can't stop me from living my life
Watch me Rise oh-oh-oh
Watch me Rise oh-oh-oh
Watch me Rise
Insecure, underneath I was hurt
I spent my whole life striving to be perfect.
I used worry what others thought of me
I found my light inside the dark
I filled the hole within my heart
You have no power over me
Watch me rise above all the lies
I won't Break, no matter how hard you try
Watch me rise, I'm touching the skies
Nothing can't stop me from living my life
Watch me Rise oh-oh-oh
Watch me Rise oh-oh-oh
Watch me Rise
