

# Welcome to Me

## Cover Drive

Everybody in your fancy cars  
Millionaires planning trips to Mars  
You're your own superstar but we don't care, no, about that part  
Hiding under your shades  
They cost more than you make  
Eyes cutting like razor blades but we don't care, no we're not fazed I wanna be the one you know  
That one in a million  
Just me, not fussy, oh baby  
CAN'T LET THIS GO  
I wanna be your breath of air  
I wanna be your biggest dare  
Oh boy, WELCOME TO ME  
Can't let this go, no na na na na  
Can't let this go, no na na na na Shouldn't take a massive quake  
To shake the world awake  
Pop, pop that bubble wrap, let's fix this crap for goodness sake  
How did reality  
Get scripted by TV  
It's oh so cool to be exposed on screen just for money I wanna be the one you know  
That one in a million  
Just me, not fussy, oh baby  
CAN'T LET THIS GO  
I wanna be your breath of air  
I wanna be your biggest dare  
Oh boy, WELCOME TO ME  
Can't let this go, no na na na na  
Can't let this go, no na na na na Forget those plastic cards  
Don't need cosmetic parts  
Put down those magazines  
Cause they ain't really what they seem  
Big up them battle scars  
They make you who you are  
Pop, pop your bubble wrap, let's fix this crap for goodness sake I wanna be the one you know  
That one in a million  
Just me, not fussy, oh baby  
CAN'T LET THIS GO  
I wanna be your breath of air  
I wanna be your biggest dare  
Oh boy, WELCOME TO ME

Can't let this go, no na na na na  
Can't let this go, no na na na na
