

# Wrong Direction

## British India

So far in the wrong direction  
What made it so easy to change your mind?  
So long and I won't surrender  
I've gotta get back while the sun's still shining

So much time in the wrong direction  
How much longer till I can forget you?

Tried once and now you're the expert  
Tried once and it's so hard to let it go  
You need to ask but you know the answer  
You ask but you know that I know you know

So much time in the wrong direction  
How much longer till I can forget you?

So much time and I won't surrender  
How much longer till I can forget you?

Still better than these pretenders  
Still better than all of the other ends  
And this time I will not surrender  
This time I forgive but I won't forget

So much time in the wrong direction  
How much longer till I can forget you?

So much time, and I won't surrender  
How much longer till I can forget you?
