

# Good Good Things

## Descendents

\* I know a place, up in the air  
It's not very far, I've been there before  
I know a place, good and warm  
Good in my blood, warm in my heart  
\*\* So come on down and walk with me, and tell me I'm your man  
I only want to know a couple of things about you  
Where were you when I was in so much trouble with myself  
And do you still believe in me like I believe  
I've been thinking good good things about you  
Good and warm, good good things about you  
\*\*\*If you've been thinking good good things about me  
So good and warm when you put your arms around me  
On my own, I know where to go  
Living the lie, in your eyes  
I know a place, good and warm  
Good in my blood, warm in my soul  
So come on down and walk with me, and tell me I'm your man  
Let's see if I can get it right with you this time around  
I'm not afraid of losing you, my little girl  
But do you still believe in me like I believe  
I've been thinking good good things about you  
Good and warm, good good things about you\*\*\*
