

# There I Go Again

## Mobb Deep

Yeah, yeah, know what I'm sayin'?  
Straight burn biscuits, baby  
Yeah, give it to 'em raw, uncut  
Turn them headphones up No doubt son, no problem  
Creepin' it though, baby  
It's gangsta, the truth gonna come to the level Yo, as this blood flow through my veins  
I stand before this mic with a stepped up game  
Some things, when I look, how they never gonna change  
It ain't a thing, niggas wild, then I'm cockin' that thing 'Cuz you know with every action there's a reaction  
And there's no known cure when I'm sick with the clappin'  
How many times it have to happen, niggas talkin' like they generals  
They just mere captains The streets there's rules, slugs hit 'em with infractions  
And then there's Hollywood, if you want some fuckin' acting  
You got these niggas out mis-representin' they hood  
Give 'em heart now they icin', I'm like nigga what's good? 'Cuz you know how I get with these macks and  
these techs  
Blaze 'em down gives a fuck about the next nigga rep  
Play around find yourself getting' cheated by death  
Man gone and believe me dog it happened to the best You know a nigga, I be tryin' to chill  
But now then I'ma hafta run these niggas a drill  
(No doubt)  
There comes a time in every nigga life  
When he's face to face with that ole', kill or be killed And here I go again, grabbin' my steel  
'Cuz now then I'ma hafta run these niggas a drill  
(Run 'em)  
There come a time in ever nigga life  
When he's face to face with that ole', kill or be killed Ay, yo, don't make me have to body something  
Fuck you and what you known for, to me you're nothin'  
I don't see why in the world to me you frontin'?  
And if you was that nigga then you still mean nothing Homes, my gun is bustin'  
(What?)  
Fuck all y'all niggas my stomach is touchin'  
And I be right there on Murdle Ave, come through  
You bitch ass niggas wouldn't know what to do I get bullet proof love, pounds and hugs  
You get extorted by the thugs that grew up in your hood  
You get killed fuckin' with P, you really should  
Not do that, I use that, lugar good, catch a bad one  
Ran Dunn raggity, you got fucked up and left for dead in the street Yo, who wants it with Hav? Who want it  
with P?

Not near one of y'all and I put that on me  
But if [unverified] You know a nigga, I be tryin' to chill  
But now then I'ma hafta run these niggas a drill  
(No doubt)

There comes a time in every nigga life  
When he's face to face with that ole', kill or be killed And here I go again, grabbin' my steel  
'Cuz now then I'ma hafta run these niggas a drill  
(Run 'em)

There come a time in ever nigga life  
When he's face to face with that ole', kill or be killed Yo, believe me dog there's more than  
Cockin' and squeezin' and afterward  
That nigga still be breathin'  
And who gonna snitch if you lucky to leave it then? For a reward nigga just might turn you in  
I take it further and I might just murder him  
That mouthpiece all together, I'm curbin' him  
It's very clear and there's nothin' to blur my lens  
It's very real, ain't got no time to pretend Yo, feelin' it thugs, I dump a magazine on you Dunn  
I'll run up on you niggas with the master glove  
Dunn, there's nothin' for me to snap and get on tilt  
I know it's nothin' for you, the pain to have me killed I respect the laws of war and love, I live by them shits  
Y'all niggas not ready for this

You not knowin' how you about to get your head crushed  
Spray it Dunn, straight out, shit it when them guns come out You know a nigga, I be tryin' to chill  
But now then I'ma hafta run these niggas a drill  
(No doubt)

There comes a time in every nigga life  
When he's face to face with that ole', kill or be killed And here I go again, grabbin' my steel  
'Cuz now then I'ma hafta run these niggas a drill  
(Run 'em)

There come a time in ever nigga life  
When he's face to face with that ole', kill or be killed You know a nigga, I be tryin' to chill  
But now then I'ma hafta run these niggas a drill  
(No doubt)

There comes a time in every nigga life  
When he's face to face with that ole', kill or be killed And here I go again, grabbin' my steel  
'Cuz now then I'ma hafta run these niggas a drill  
(Run 'em)

There come a time in ever nigga life  
When he's face to face with that ole', kill or be killed We've got to learn to swallow our pride  
It's hard just to let things ride  
Maybe one day things will change  
As of right now, let me show you something We've got to learn to swallow our pride  
It's hard just to let things ride  
Maybe one day things will change  
As of right now, let me show you something We've got to learn to swallow our pride

It's hard just to let things ride  
Maybe one day things will change  
As of right now, let me show you something We've got to learn to swallow our pride  
It's hard just to let things ride  
Maybe one day things will change  
As of right now, let me show you something We've got to learn to swallow our pride  
It's hard just to let things ride  
Maybe one day things will change  
As of right now, let me show you something We've got to learn to swallow our pride  
It's hard just to let things ride  
Maybe one day things will change  
As of right now, let me show you something
