

# Red Eyes

## The War on Drugs

Come and see  
Where or when there's everything  
    On my ways  
    Be better, get to my soul  
    Against my way  
Anyone can tell us you're coming  
    Baby, don't mind  
Even if I lay anywhereColorado, it's easier to stick to the earth  
    Surrounded by the night  
    Surrounded by the night, don't go  
    Don't you abuse my faith  
    Lose it eternally, go nowhere  
    You're on my side again  
    So rather here, wherever it goes  
    Oh, baby, I don't wanna care'By the way'  
    And if you see through the darkness coming my way  
Well, if you hold close my side you're gainingIt all seems everywhere  
    Made of time, made of wool, I can't  
    Don't think they would mind  
I will keep you here, but I can'tOh, I'll talk to you if I can  
    I'll see you where I goFlower my seed  
    Starts to accume please leave, their coming by soon  
    Does anyone care but myself?  
    So rather here, wherever it goes  
    Seen the darkness coming my way  
    I can hear the world just silent  
    The ups and downs of society
