Never Gonna Leave Me

Sia

We are anything but unremarkable
We found things that we had given up on
We were two peas in a pod, oh yeah
Peas indeed, seven good deeds
You're a man of strength, a man indeed
We found things we had given up on
Now that you have gone I know it won't be long
You will be waiting for me, faithfully, baby
Now I'm taking your love from above
You're here and you're never gonna leave me
I will carry you on well so long
Your love is never gonna leave me
Now I'm taking your love from above
You're here and you're never gonna leave me
I will carry you on well so long
Your love is never gonna leave me
You're never gonna leave me
Well, you touched my heart and then gave me yours
I was so afraid, I tried to ignore
All the butterflies taking me over
We are anything but unremarkable
We found things we had given up on
We found love, oh, yeah
Now that you have gone I know it won't be long
You will be waiting for me, faithfully, baby
Now I'm taking your love from above
You're here and you're never gonna leave me
I will carry you on well so long
Your love is never gonna leave me
Now I'm taking your love from above
You're here and you're never gonna leave me
I will carry you on well so long
Your love is never gonna leave me
You're never gonna leave me
You're never gonna leave me
Now that you have gone I know it won't be long
You will be waiting for me, faithfully, baby
Now I'm taking your love from above
You're here and you're never gonna leave me

I will carry you on well so long
Your love is never gonna leave me
Now I'm taking your love from above
You're here and you're never gonna leave me
I will carry you on well so long
Your love is never gonna leave me
Now I'm taking your love from above
You're here and you're never gonna leave me
I will carry you on well so long
Your love is never gonna leave me
Now I'm taking your love from above
You're here and you're never gonna leave me
I will carry you on well so long
