

Look for Me (I'll Be Around)

[Neko Case](#)

When you tire of all the bright lights
Haste that's killing and you're willing to stay home nights
When your feet are back on the solid ground
Look for me, I'll be around When the new crowd starts to bore you
Just remember there is someone to adore you
When you're weary of nights out on the town
Look for me, I'll be around May not seem exciting
Way those others do
In emotion, my devotion
You will need some day as I need you When the kicks go, that it brings you
You will hanker for an anchor just to cling to
When you've lived it up, till it's got you down
Look for me, look for me Look for me, I'll be around
