

The Perfect High

Beach Slang

Let's get lost in this feeling
Like we're never going to die
Make it soft like we're dreaming
Cross my heart
Stab my eye You're the perfect high
You're the perfect high
You're the perfect high
You're the perfect high Let's get caught in this weird thing
Of 'too alone or too alive?'
All this junk could've killed me
But I'm not dead
And you are why
You're the perfect high
You're the perfect high
You're the perfect high
You're the perfect high
