

# Immaculate Misconception

## Antagonist

What the fuck?

Put your teeth to the curb, cuz right now I'm gonna stomp your fucking face in  
I hope you drown in all the cum you fucking swallow, to get yourself to the top

You're just a trend, just a fucking disease,  
How could you look at yourself in the mirror?  
You stand for nothing and your heart is untrue  
Every single thing about you's just a clone of the last "you"

All I want is to reach someone,  
to say something that could change their life forever  
To let them know they're not alone, you're not alone

So many people wanna see me fail,  
so fucking clever but I'll spit in your face  
I'll make sure you remember me  
If all these words you speak of meant a thing  
I'd take back all the lines against you that I sing

But I know that there's nothing real inside  
Your heart's invested in feeding everyone lies  
I've seen so many of you come and go,  
That's cuz you're in it for all the wrong fucking reasons  
You can't expect to live off of lies and survive

I am who I am, this is what we are,  
I don't care if this offends you, or your worthless god  
To all the kids who's letters I receive  
The broken hearted, the damaged just like me  
I will be your voice to let the world know we stand as one  
We're standing right here so come and fucking get us  
Open your mind before your mouth  
Or come and fucking get us  
Open your mind before your mouth  
I'll be the end of your decadence

If all these words you speak of meant a thing  
I'd take back all the lines against you that I sing  
If all these words you speak of meant a thing  
I'd take back all the lines against you that I sing  
But I know that there's nothing real inside  
Your heart's invested in feeding everyone lies  
I may not have built this kingdom but,  
I'll make fucking sure that I protect it from you.
