She Ain't Me

Sinead Harnett

[Verse 1]
We built these walls of steel and what a waste of time
You went ahead and made them crumble just one night
I give, she takes, I bend, you break
This love, but thank god cause if[Pre-Chorus]
She's gonna give you more
She's gonna take the heat
Baby, I guess she's better
Better than I'll ever be
It seems you've made your bed
You gave her the key
Guess you belong together
As everyone else can see[Chorus]
But baby, she ain't me
Baby, she ain't me
Baby, she ain't me
Baby, she ain't me[Verse 2]
I count my lucky stars above each day, I swear
That there's no me and you, there's only you and her
Your loss, my gain, your biggest mistake
To let me go, but thank god cause if[Pre-Chorus] + [Chorus](x2)[Bridge]
Go ahead and have her, darling
But don't run back to me
When you find out what she's about
There'll be no loyalty
Thank God she came between us
Show me you can be true
You've lost the best
There's nothing left, no[Pre-Chorus] + [Chorus](x2)
