Calm Me Down

The Human Expression

I can't stay in one place
I have to move around
Well I've got to find somebody
Just to calm me down

Hey
Well I've got to find somebody
Just to calm me down
Well I get all tense and hung up
Just hangin' around

Well I get so frustrated
Well I can't sleep at night
Later on I get so upset
Well I'm just home all the time

You gotta calm me down
Gotta calm me down, gotta calm me,
Calm me, calm me, calm me down

I have to run and hide
Just to be alone
People knockin' on my door
Callin' on the phone

Hey
Well I've got to find somebody
Just to calm me down
Well I get all tense and hung up
Just hangin' around

Well I get so frustrated
Well I can't sleep at night
Later on I get so upset
Well I'm just home all the time

You gotta calm me down
Gotta calm me down, gotta calm me,
Calm me, calm me, calm me down
