

# True Love In The Galaxy

## Mourning Widows

Sadness runs, lonely dies, fear explodes  
The moment you arrive  
And all the stars align, I'm fine  
Life's a trip, Start to fall, just in time  
I float inside your eyes  
I sit there for a while and smile  
(You know there's somebody out there)  
(You know there's something out there)  
(Well what are you waiting for?)  
Come aboard the rocketship  
We're blasting through the Milky Way  
Where love is a billion meteors  
Crashlanding into you  
True love in the galaxy  
Have you heard the crazy news  
Isn't true  
They say that love it dies  
Can't believe the lies. They lie  
They don't know where we live  
The galaxy where love surpasses love  
I wish they'd all just come with us
