

Still Alone

The Deacons

Doing like you said
Taking deep breaths
Keeping my cool
Counting to ten
On my own again
Trying to keep my head clear
Go for walks away from here
But i know
I am still alone still alone
Like the day i was born
Born in
Brought into this world
Still alone still alone
Like the day i was born
Born in
Brought into this world
Hold onto your friends

Thats what he said
I guess that his friends are not like mine
I could write a list of people i dont miss
Im sorry but im so much better off without you
Im still alone still alone
Like the day i was born born in brought into this world
Still alone still alone
Like the day i was born born in brought into this world
Hold it all against me still dont bother
Hold it all against me another complaint
High maitnence
Complain
Oh shut up
Bahh dee bahh doa
Oh shut up
Still alone still alone
Like the day i was born born in brought into this world [x3]
