Habit

Ought

Well there is something, something you believe in
But you can't touch it, and you can't hold it
Well there is something, something you believe in
And you can't wait for it to take away a bit of time at a
Non-specific party in a non-specific city
Or anywhere, anywhere you feel this way like
This song, or that song, well
Act like you feel it, but it doesn't heal you
And it doesn't make you smileIs there something you are trying to express, yeah?
It's not that you need it, it's that you need it
And is there something you are trying to express, yeah?
That you can't get on without it
No you can't get on without it
Is there a weight that you are trying to unload here?
But you just can't get it, you can't get it off now
And when you get it, get it in your bloodstream
And you feel whole with it, but you just can't get reliefAnd there it comes again and you give in again
And there it comes again, your limitation
And there it comes again and you give in again
And you give in again
Your limitationIs there something you are trying to express, yeah?
Express it with me, express it with me
Is there something you are trying to express, yeah?
It's not that I need it, it's that I need it
And is there a weight that you are trying to unload here?
But you just can't get it, you can't get it off now
And when you get it, get it in your bloodstream
And you just feel whole with it, but you just can't get reliefAnd there it comes again and I give in again
And there it comes again, my limitation
And now it comes again and you give in again
And I give in again
Our limitationWell I think I, I see it coming
Because I recognize it when I see it
Do you feel it, like I feel it?
'Cause I need to know I'm not alone in it
I feel a, a habit, I feel a habit forming
I feel a, a habit, I feel a habit formingI feel a, a habit, I feel a habit forming [x3]Do you feel it, like I feel it?
'Cause I need to know I'm not alone in it
'Cause I need it and I believe in it

And I think that I can't live without it
I feel a, a habit, I feel a habit forming
I feel a, a habit, I feel a habit formingA habit, a habit, a habit, a habit, a habit
I feel a, I feel a
A habit, a habit, a habit, a habit
I feel a, I feel aDo you feel it, like I feel it?
'Cause I need to know I'm not alone in it
A habit, a habit, a habit, a habit, a habitI feel a, I feel a
Habit, a habit, a habit, a habit, a habit [x3]I feel a habit forming
