

# All Of Your Life (you Need Love)

## Backstreet Boys

Hey...

Yeah, Yeah.

I wanna know  
Can we spend this life together  
Be a shield from rainy weather  
Tell me can I  
Baby tell me can I be your man?

Let's be lovers  
(Malik) I promise to be faithful  
True and honest, yeah, forever  
I know you've been hurt  
But you really need to give us a chance

You need love  
Please don't change the way you are  
Soon, you'll live within my heart  
You deserve it, you know it  
You've been searchin' for it all of your life

You need love  
Don't be scared to try again  
You can rest upon my chest  
And I'll hold you, I'll save you  
You've been searchin' for it all of your life  
(You need love, need love)

I need to know  
Can I be the one you trust  
Be your friend I'll give you all,  
All of the things you dream of  
Tell me can I be your man?

Oh, in your heart  
There's a wound I wanna heal  
If you're willing I'll be here  
Here to fix the broken

Let me change the life you live

You need love  
Please don't change the way you are  
Soon, you'll live within my heart  
You deserve it, you know it  
You've been searchin' for it all of your life

You need love  
Don't be scared to try again  
You can rest upon my chest  
And I'll hold you, I'll save you  
You've been searchin' for it all of your life  
(You need love, need love)

You've been searchin' for it all of your life  
Yeah.  
(You need love, need love)  
You've been searchin' for it all of your life!  
Oh, oh, oh, oh

You need love, need love  
Don't change the way you are.  
You need love  
Searchin' for it all of your life

You need love  
Please don't change the way you are  
Soon, you'll live within my heart  
You deserve it, you know it  
You've been searchin' for it all of your life

You need love  
Don't be scared to try again  
You can rest upon my chest  
And I'll hold you, I'll save you  
You've been searchin' for it all of your life

You need love  
Please don't change the way you are  
Soon, you'll live within my heart  
You deserve it, you know it  
You've been searchin' for it all of your life

You need love  
Don't be scared to try again

You can rest upon my chest  
And I'll hold you, I'll save you  
You've been searchin' for it all of your life  
(You need love, need love)
