Real Talk

Bloc Party.

Can we get real for a moment?
You?re my one and only friend
Watch the sunset from your sedan
Let your hand rest on mine
I?ve lived in every town
But here is where I find home
My mind is open
And my body is yours
Show me the sign
Please

I was so sure, I was faulty
And not able to love
But then you crept up on me
While I was dreaming
Whispered love into my ear
If you?re tired
I can drive us
We can go back
To my place
My mind is open
And my body is yours
Show me the sign
Please
