Anything & Everything

Montell Jordan

Another, another, another, another
Another number one hit
So get your groove on
Another number one hit
So get your groove on
Ah, anything I want boy
Ah, anything I need boy
Ah, anything I want boy
Another number one hit
So get your groove on
They say that money can't buy me love
But they don't know this Tenderoni
That I speaking of
She's so fly from her head to her toes
And I suppose
That's why I'm tricking off my dough
So if it's diamonds she wants, then I'll
I'll dig into a mine and search until I find
If it's a fur that she needs to keep warm
Then I'll wrestle a bear to keep her lovin' right here
Anything she wants, everything she gets
She wants it all the time
So I'll provide and buy
Anything she wants and everything she gets
'Cause all her love is mine
When she's satisfied
Anything I want boy
Ooh, that's what she said to me
She's a material girl
But that don't bother me
Check books, credit cards, American Express
Financially I'm twisted and addicted, I confess
So if it's diamonds she wants, then I'll
I'll dig into a mine and search until I find
If it's a fur that she needs to keep warm
Then I'll wrestle a bear to keep her lovin' right here
Anything she wants, everything she gets
She wants it all the time
So I'll provide and buy

Anything she wants and everything she gets
'Cause all her love is mine
When she's satisfied
Yo, yo
Hey yo, son I ain't trickin' off, bitch better trick me
Serving grade AD to A and TNC
Something like AK Nell
Better fuck me for free
'Cause when trickin'
I do stickin' like IV's
I told Montell spend your money like your
If she yells Cristal
Give her double duces
If she wants a mink
Get her ass a goose
She was shady before ya
Dropped This is How We Do It
Now my MO
Hydro with a bimbo
Da' CoCo got her Cabana's
Out da' window
I get deep like I stuck my feet in slow
You jump out of bed
Boggling, screaming timbo
When a broad want ice
Give her ass a ice pick
And then dismiss like Vibe did Chris
(But diamonds are a girl's best friend)
Yeah, yeah mine too
That's why the 44 cocked right behind you
So if it's diamonds she wants, then I'll
I'll dig into a mine and search until I find
If it's a fur that she needs to keep warm
Then I'll wrestle a bear to keep her lovin' right here
So if it's diamonds she wants, then I'll
I'll dig into a mine and search until I find
If it's a fur that she needs to keep warm
Then I'll wrestle a bear to keep her lovin' right here
I'll get your hair, nails, and toes done
I'll trick off all my dough
To let you know that you're the one
You'll like the car you drive
The clothes I buy
'Cause you're so fly
Tell me baby, Can Montell provide?

So if it's diamonds she wants, then I'll
I'll dig into a mine and search until I find
If it's a fur that she needs to keep warm
Then I'll wrestle a bear to keep her lovin' right here
So if it's diamonds she wants, then I'll
I'll dig into a mine and search until I find
If it's a fur that she needs to keep warm
Then I'll wrestle a bear to keep her lovin' right here
