

# What You're Made Of

Darin

Let's go, yes I know, everybody knows  
You've got that feeling  
Get up now, yeah get on up  
And show us all what you're made of Oh no, yes I know, every time I do  
I get all the attention  
Get up now yeah get on up  
And show us all what you're made of When I'm thinking, every day  
Every night, every time I see  
What I got and what the world is  
Damn, it's good to me, yeah When you watching everything seems so good  
But what happens inside  
Get up now, yeah get on up  
And show us all how to move that far Oh, can't you see if you  
Got the will you'll make it far  
You gotta try, try, try and fight, fight, fight  
'Cause you gotta do what's right, come on Let's go, yes I know, everybody knows  
You've got that feeling  
Get up now, yeah get on up  
And show us all what you're made of Oh no, yes I know, every time I do  
I get all the attention  
Get up now yeah get on up  
And show us all what you're made of Hey sweetie baby, did you know that everything I see in you  
Makes me blow away, yeah  
And did you know that you, yeah ah, you can do it  
Get up now yeah get on up and do something about it Oh can't you see if you  
Got the will you'll make it far  
You gotta try, try, try and fight, fight, fight  
'Cause you gotta do what's right, come on Let's go, yes I know, everybody knows  
You've got that feeling  
Get up now, yeah get on up  
And show us all what you're made of Oh no, yes I know, every time I do  
I get all the attention  
Get up now yeah get on up  
And show us all what you're made of Let's go, yes I know, everybody knows  
You've got that feeling  
Get up now, yeah get on up  
And show us all what you're made of Oh no, yes I know, every time I do  
I get all the attention  
Get up now yeah get on up

And show us all what you're made of Crazy sexy cool you name it  
Bring it all, don't sweat, just stay there  
Bring it on, bring it, bring it on  
Just pull your hands back 'cause I said that Seeking, looking for my game  
Cryin' over all that fame all the time  
It never came so show us all  
What you're made of Let's go, yes I know, everybody knows  
You've got that feeling  
Get up now, yeah get on up  
And show us all what you're made of Oh no, yes I know, every time I do  
I get all the attention  
Get up now yeah get on up  
And show us all what you're made of
