

# Celebrity (feat. Dwele)

## Big Sean

Chorus:

I am in love with the lights, the love, the rights, the wrongs,  
They told me that it wouldn't be night for long!  
The lights, the love, the rights, the wrongs  
They told me that it wouldn't be night for long! And I'm in love with the lights, the love,  
Celebrity hoes, Hollywood parties that never get old!  
Table full of new hoes, champagne nuevo,  
But my money is on Venus, but my neck is on pluto.  
I need a girl that look badder than my girlfriend,  
You know the ones that look badder than they girlfriends,  
Paparazzi try to pop big since I'm in cali  
But I just hide my face doin da Errol Flynn  
Hoodie over my head, Jedi, Anakin,  
Looking like a BBC, Louis V mannequin  
She ain't got no man in him,  
She got no companion, she's Jennifer Aniston,  
I'm trying to hit her, and her friend!  
And again, and again,  
Pass it to my man's and them, fuckin all da baddest bitches in the city we landing in!  
What happens when it all falls?  
And the success is all gone?  
And it's all gone...  
But for now I'm a celebrity!  
For now I'm a celebrity! Chorus:  
Cause I'm in love with the lights, the love, the rights, the wrongs,  
They told me that it wouldn't be night for long!  
The lights, the love, the rights, the wrongs  
They told me that it wouldn't be night for long! And I'm in love with the money  
They say that it's the root of all evil,  
At least that's what the pastor tryna to teach ya'll,  
But he ain't pass around that collection plate  
Until it's heavy weight as soon as his speech through  
Then hop in dat benz coupe  
Shit, I'm trying to get a benz too!  
But how is it the root of all evil?  
If it could take my whole family out to rio  
No more repo or depo, just speedboats, jewelry all gold, call me C3PO.  
Smoke so much, I gotta see 3POs  
Cause I'm worldwide tourin with me and my nigga Xeno

Most comfortable behind the mics like Tito  
So I would hate to lose my mic like Tito  
What happens when it all falls,  
And the success is all gone, and is all gone?  
But for now I'm a celebrity!  
For now I'm a celebrity!Chorus:  
Cause I'm in love with the lights, the love, the rights, the wrongs,  
They told me that it wouldn't be night for long!  
The lights, the love, the rights, the wrongs  
They told me that it wouldn't be night for long!Anything in life for love and meaning,  
I hope they never try to tell me I'm leaving,  
Getting everything I want, then I've got my mom next,  
LA Reid sign checks right after the contract.  
I always have a crazy flow  
Pockets was on radio  
Active I guess cause I was active on a radio.  
Way back in high school, yeah nigga CT  
Where I met my nigga Tone, Pat Piff, and CT  
Came out of the slum, nigga, way before T3  
Give them hoes the runaround,  
We just call em track meets  
It's funny now when I look back,  
Cause them the times that give me the inspiration touts the track needs
