

Supernature

Top of the Poppers

Once upon a time, science opened up the door
We would feed the hungry fields
Till they couldn't eat no more But the potions that we made
Touched the creatures down below
And they grew up in a way that we'd never seen before Supernature, supernature
Supernature, supernature They were angry with the man
'Cause he changed their way of life
And they take that sweet revenge
As they trample through the night For hundred miles or more
You could hear the people cry
But there's nothing you can do
Even God is on their side
(God is on, God is on, God is on their side) Supernature, supernature
Supernature, supernature Gods will break the ice and throw it in the air
The creatures will decide who goes where How can I explain? Things are different today
Darkness all around, no one makes a sound
Such a sad affair, no one seems to care Supernature, supernature
Supernature, supernature Better watch out, there's no way to stop it now
You can't escape, it's too late Look what you've done
There's no place that you can run
The monsters made, we must pay Maybe nature has a plan to control the ways of man
He must start from scratch again
Many battles must he win Till he earns his place on earth
Like the other creatures do
Will there be a happy end?
Now that all depends on you Supernature, supernature
Supernature, supernature (Zupernature)
Supernature
(Zupernature)
Supernature
(Zupernature)
Supernature Zupernature, zupernature
Zupernature, zupernature
Zupernature
