Walls

Greyhounds

The cold winds of cynicism
Blow through my native home
And in my optimism
Sometimes I feel all alone
What happened to the feeling
That we can make a change
Power to the people
Is what they used to say
Let's rekindle the fire
To light the path to a brand new dayBreak down the walls (these walls)
That we put between each other (break down)
All the walls (these walls)
That keep us apart (break down)
Should knock down the walls (these walls)
Between us and our dreams (break down)
We've gotta topple the walls (these walls)
Around our heartsNo one can tell you
Which side you're on
You've gotta decide for yourself
Where the lines are drawn
Take off your armor
Let the sun shine on your skin
Well, we are the future
Where it all beginsLet's break down the walls (these walls)
That they put between us (break down)
All the walls (these walls)
That we build ourselves (break down)
Let's tear down the walls (these walls)
All the walls that we can find (break down)
Oh the walls (these walls)
Inside of our minds
