

Save a Soul In Every Town

The Christians

Lord you saved me from myself, won't you save somebody else,
I know, I no longer need you.
Because when I was down and out, you heard me scream and shout,
Please show, you hear others who need you.
Won't you take them by the hand,
Come on and lead them from this barren land,
Won't you save a soul in every town,
Please save a soul in every town From the strength of belief,
we'll put an end to all our grieves,
But first, let it not be forgotten
You can help the feeble up,
But don't ever let them dry,
We must stay around to support them.
Won't you take them by the hand,
Come on and lead them from this barren land,
Won't you save a soul in every town,
Save a soul in every ton. Save a soul who is hungry and starts to cry,
And the mother who fears that her well runs dry,
With your help we can give them a better life,
Free from trouble and strife.
Lord you saved me from myself, won't you save somebody else,
I know, I no longer need you.
Won't you take them by the hand,
Come on and lead them from this barren land, Won't you save a soul in every town
Please save a soul in every town.
