

Memphis

Brownie Mary

Maybe we should never wonder
Maybe we should live here like we do
Dreamin' of a good life
Like it wasn't meant for me and you
Who am I to question
My father was a good man all his life
He never wanted nothin'
He just lived like you and I would love to fly to Memphis
And ask the King what I should do
'Cause I believe he's somewhere out there
Don't you? We just sit here watching tv
We eat everything the network wants us to
Baby I've seen every rerun
I know everything they say and do
I saw it on the X-Files
Mulder kinda thinks the way I do
A pilgrimage to Memphis
Is what my soul needs to break through I want to drive to Memphis
The King will tell me what to do
'Cause I believe he's somewhere out there
Don't you? I'm tired of all these questions
I've been asking questions all my life
But I believe in something
That will change my little life Tonight I'll drive to Memphis
I'll show the King a thing or two
'Cause I believe he's somewhere out there
Don't you? I've always wanted something better
But I am as scared as you
But I believe there's something out there
Don't you...don't you?
