Mayhem

Namco Sounds

Endless war, endless screams
In the boundaries of hell we live
Total death, total hate
On the devastated plains we fightEvil minds, insane minds
Mutilated corpses over the ground
Soldiers of hell, soldiers of death
Seeking victims to exterminateBlack death, black night
Where the spirits leave their crypts
Tortured souls, drifting souls
By the world of hateMulti radiation, multi death
Destroys and kills even in the deep of hell
Fallen corpses, fallen angels
Total injury is the only ruleMayhemDeath slaughter, death rules
Under the sign of fear we live
Bestial lust, bestial rites
Darkness send it's bestial warriorsShrill cries, tormenting cries
Break the silence of the dark night
Living with hate, living with death
Giving the world total destructionBlood world, rotting world
Corrosion of the insane human mind
Black pest, devastating pestUnder the evoking circle we pray
Baptized skull, evil skulls
People screaming, chained undergroundMayhem
