The Human Right (True Love)

Elias

Breathe in, breathe out
Feel the beat of the heart
We're all human, right?
But do we know what for
We're all broken, hungry, thirsty
And we fear the grave
But the Bread of Life
Said don't be afraid
Oh! We all need true love
Love has a face in the Son of God
True love is a human right
Let the whole world know The Way, The Truth, The Life
Are we looking upside-down for the right way up
If we can save ourselves,
Why do we seem so lost
Is it just to just to be thinking of our flesh and bones
You can save the world, but who will save your soul
Oh! We all need true love
Love has a face in the Son of God
True love is a human right
Let the whole world know The Way, The Truth, The Life
This is a broken world
Where we can live and die
And never know the Truth
True Love is alive
The Risen Son of God
Hope for the broken heart
The Body, Soul, and Mind
So let the whole world know
We all need true love
Love has a face in the Son of God
True love is a human right
Let the whole world know The Way, The Truth, The Life
Oh! We all need true love
Love has a face in the Son of God
True love is a human right
Let the whole world know The Way, The Truth, The Life
