# Drift

## Eva Under Fire

Slip away- behind the rain
I sing your praises
The light that made me change
Sings to my soul
Drift in sadness; heart with holes
Driftin soulless, all alone

Burn black heart
And lonely was her nameÂ
The pavement he found her
Writhing in her pain
Kept her breathing.. breathing

She wasn't breathing, only bleeding
Broken and aloneÂ
Til he came to take awayÂ
the pain in her bonesÂ
Oh She cried "save me"Â
Oh she cried "someone save me"Â

Burn black heart
And lonely was her nameÂ
The pavement he found her
Writhing in her pain
Kept her breathing.. breathing

Somebody Save me
Someone save me
Please someone save meÂ
Somebody Save me

Slip away- behind the rain
I sing your praises
The light that made me change
Sings to my soul

Burn black heart
And lonely was her nameÂ
The pavement he found her
Writhing in her pain

Kept her breathing.. breathing

Oh ohhh ohh kept her breathing. Breathing. Breathing.. ohhh..
