

Leonâ€™s Space Song

Helium

Leon, sing me your space song, I don't care if you do.
Shoot me into the 23rd century with you.
All my friends in L.A. love me more than you...
Love lasts a very long day, and then is through.Ooooo! I got a funny feeling about you.
Maybe it was all of those nasty things you made me do.
Like sitting and watching you break through the other side
Saying, "I've got a rainbow DRAGON we could ride."
Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
