

Bubbles Go Bang (Original Edit)

P.C.T

(INTRO)

Danger Money's in the building...

It's P.C.T...

Putting the bass in your body...

And the melody in your soul...

Letting the whole world know...

I came to your planet to blow...

So just go with the flow, and...

Let the vibration take control.(VERSE 1)

Now you might not have heard of me,

I heard, that I'm as sick as the silicon a chick would have in/

Her teat if she had a bit of plastic surgery/

Third degree burns would be a lesson you learn,

And never would you return if you ever were to murder me/

In cold blood, as if you were reptilian/

Selling your soul for a dollar or ten million...

Like you're gonna wanna, women wanna holler/

B*** 'em I'm a hammer I'm Thor, I'm in Valhalla/

Hammer in one hand... chisel in another/

Mouth full of strawberry, dribbling on my lover...

I'm'a swallow her up, I wanna swallow her whole,

But I don't know, she might try and swallow my soul...

And that's a bridge too far, in need of a new car is me/

Having to hop on a train is jarring me...

Not having my own plane is jarring me...

F*** a genie in a bottle, the devil in a/

Jar with a scar under his eye at the bar is me/

So what, can I buy you a bottle? What's that?

You're a model? Your body is unstoppable/

When I said "...buy u a bottle." I meant water/

Sure as your mum bore a beautiful daughter/

Sure as your body is a shell of a magical spell/

Sure as you're a little star as well!(CHORUS)

Now you're bubbling to another banger...

"What do you mean, I'm 'bubbling to another banger'?"/

Now you're bubbling to another banger...

Well I mean you're bubbling to another banger/

Now you're bubbling to another banger...

"What do you mean, I'm 'bubbling to another banger'?"/

Now you're bubbling to another banger...
Well I mean you bubble when you hear a banger!(VERSE 2)
Future's in front, the past's behind,
I'm here now and I left the old me behind...
Reality is a dream, I'm a minute in the future,
The me you see now is a glitch in time,
The new me is a ghost, I mean a danger money doppelganger/
Let's raise a toast, everyone is a doppelganger/
None of us ever die, the life is eternal/
Never diss, or to an abyss I return, you...
Back from whence you came, to the middle of a flame,
You're a moth, I'm a candle, I'll burn you/
Burn your wings off, it's the fall of an angel/
Arthur and Lancelot at a round table,
They are a fable doing a dance in the dark...
Pulling on the heartstrings of a harp...
Up in a rave, I rain upon a parade...
For forty days, I wash 'em away... Noah's Ark...
Excuse me miss, you're the oil and I'm a spark,
If we set the world on fire it's gonna glow in the dark,
As for looking the gifthorse in the mouth,
I'd rather put my neck on the line between the jaws of a shark,
I give 'em air, f*** it I don't care I'm debonair...
Ripping the head off of a black bear,
I'm hitting the ground running, the album's coming,
Mother Earth, everyone on the planet better prepare, (I/ swear)(CHORUS)(VERSE 3)
Feel the bass in your genitals...
And the melody in your cranium...
All of you rappers are looking to go platinum...
F*** that I'm looking to go uranium...
I'm radioactive man...
Fallout boy is my right hand man...
And I ain't talking about the rock band,
I started a world war, I'm the black hand gang,
I'm a one-man gang, I'm a one-man army,
A swarm of jellyfish, I'm a one-man swarm,
I was born to do it, a 'Craig David', if you're a...
Keith Lemon I reckon you should never have been born, a
And the fruit of my labour, a labour of love,
Is a beat on repeat, the one I made for the love,
And you're moving your feet to one I made for the club...
Yeah, I made this beat right here, if you...
Wanna get drunk it's your prerogative,
What you see as a good time is gonna be positive,
What you see as a good night is probably gonna be...

An all-nighter with me, watching the Sun rise...
Above another horizon, the break of dawn...
What's that? You said it's funny your name is dawn?
It might be my lucky night, lucky as the night I was born,
What's your opinion on soft p***?
I mean come with me to the hall of dreams/
Give me the key to every door in your dreams...
Come with me to a hall of dreams,
If you give it to me, we're living all of your dreams!
