

All in the Night

[Nic Hessler](#)

You never know how hard I've tried tonight
to keep the ?phony? conversation live
you never feel the way I feel inside
while dreaming of your eyes out in the night and try, and try
but I just can't seem to get you off my mind, my mind I never thought that I could see it any other way
the only vision's keeping me wide awake
and i'm secret sleeping with you behind
while dreaming of your eyes out in the night. I try, and try
but i just can't seem to get you off my mind, my mind I try, and try
but i just can't seem to get you out of my mind, my mind
and i never know what i'm out to find all in the night (x8)
