Penny

Killpretty

Penny it's so silly to me
I guess, you're only holdin' out on me
I telephone, you're never ever home
And every time I call
It drives me up the wall
It's crazy to me
I took you to see all the stars in the sky
You took me by surprise
There isn't a doubt
That's what you're talkin' about
Everybody knows it but me
Penny I got your number
You're so easy to read
You make the sidewalks bright
In the dead of the night
You ought to give yourself a hand
Penny I got your number
You know you gave it to me
Well you could dance all right
With the boys all night
You know you got control
Penny the arcade is gettin' old
Penny I got two cities on hold
Haunted by the promise of another man
Penny it's not that
I don't really understand
It's crazy to me
I took you to see all the stars in the sky
They twinkle in your eyes
There isn't a doubt
It's what you're talkin' about
Everybody knows it but me
Penny I got your number
You're so easy to read
You make the sidewalks bright
In the dead of the night
You ought to give yourself a hand
Penny I got your number
You know you gave it to me

Well you can dance all right
With the boys all night
You know you got control
(You know you've got control)
Over me
Penny I got your number
You're so easy to read
You make the sidewalks bright
In the dead of the night
You ought to give yourself a hand
Penny I got your number
You know you gave it to me
Well you can dance all right
With the boys all night
You know you got control
Penny I got your number
Penny I got your number
Penny I got your number
Penny I got your number
Penny I got your number
Penny I got your number
Penny I got your
I got your number
