

Are You Thinking of Me Every Minute of Every Day?

Lacrosse

This year's got 200 weeks and
40-something months
19 seasons changing
and some slow, slow nights
I've been beating for two since you left here
and I can tell you there's nothing left I send my love
by air, by bird
the smoking drums
hasn't it reached you yet? it's such a shame
that we really couldn't make things last
that we really didn't let things pass
that we really couldn't make things last I never much liked dancing,
but I could dance for you
I always said the wrong things
but my heart is right for you
we got a special bond
it's just broken but can be fixed I send my love
by boat and ships
by telegraph
don't say you never got it it's such a shame
that we really couldn't make things last
that we really didn't let things pass
that we really couldn't make things last (instrumental) a broken vase, can be glued
a smashed up car can be repaired
a torn letter can be taped
but can you fix this?
cos I wanna fix this
can you fix this?
can you do something to fix this?
can you fix this? And are you thinking of me,
every minute of every day?
just like I am
just like I am
of you
cos if you're thinking of me
every minute of every day
than I'm sure we can fix this
I can fix this
I can do something to fix this

I'm sure I'll fix this
will I fix this?
will I fix this?
