

Eat Me Alive

[Anna Waronker](#)

Dont be angry, don't be cross
If you don't see me it's my loss
I just need some space to breathe
Space to think, some space for meWhats this gonna do? Eat me alive
I'll break myself in two just to survive
Simple things should be so simpleTemporary solitude
Might just be so misconstrued
I just need some space to breathe
Space to think, some space for meWhats this gonna do? Eat me alive
I'll break myself in two just to survive
Simple things should be so simple
