

# Snowstorm

Nevid

Well, I listen to the weather  
And he's changed his tone of voice  
And he can see it on the radar  
Only seven hours awayWell, there's gonna be a snowstorm  
When the TV's goin' out  
And they got nothin' else to think of  
And they're letting me go homeWell, I'm lookin' at the snowflakes  
They all look the same  
And the clouds are goin' by me  
They're playin' some kind of gameWell, you know there's a snowstorm  
When the TV has gone out  
And they got nothin' else to think of  
And they're letting me go home
