

The Lesson

Maximum Balloon & Holly Miranda

Our love is like blood rushing to my head
it brings me home it will be again again
pull me up and tear me down
far beyond this shifted world
and take my name in your heart
there is nothing before you remember the moment your heart felt so full
i fell eternity into the bottomless pool make a change
and change your mind
let you go
and come on back didn't we learn the lesson
we're never gonna answer the question
will i dream till you come in and let
the lights out
didn't we learn the lesson
we're never gonna answer the question
will i dream till you come in and let
the lights out didn't we learn the lesson
we're never gonna answer the question
will i dream till you come in and let
the lights out didn't we learn the lesson
we're never gonna answer the question
will i dream till you come in and let
the lights out
didn't we learn the lesson
we're never gonna answer the question
will i dream till you come in and let
the lights out
